THE COUNCIL AT ROME.

Correspondence of The Newark Daily Advertiser.

GENGA, Friday, Nov. 3, 1854.

Many Prelates and other dignitaries of the Church are essembling at Rome for the grand Convocation and Jubilee recently proclaimed by the Holy See, and to be present at the determination of the question of the Immaculate Conception. Among the arrivals announced, I notice the names of Cardinals Sterckz, of Malines, and Schwarzenberg, of Prague, Archbislop Dixon, Primare of Ireland, Archbishop Cullen, of Dublin, the Bishops of Cloyne, Marseilles, Verona, &c. Severel are also present from South Asia, but not one as yet from the United States. As the Assembly is not to knye the character of a Council, the circular invitation was not general, and inasmuch Assembly is not to gave the coarders of a Council, the circular institution was not general, and inasmuch as convenient longings could not well be provided for more than those to whom it was sent, and moreover, because it was not deemed expedient to withdraw a greater number from the dioceses. Nevertheless, all who come, will, it is officially intimated, meet a cordial reception.

greater tamour in a disciplination of the second of the occasion is also attracting a large number of spectators. It is the fashion of these practical times to spectators for the second of the barbaric splendor and gorgeous fictions of heathen worship, but yet multi-index annually flock to Rome from all parts of Christendom, to witness its ordinary pageants, to say nothing of this extraordinary occasion, which will doubtless surpass anything seen there in many years. Among the Americans who have recently passed through, is a young New-York lawyer, of an old New-England Protestant family, who bears letters from Archbarber Huphes as a candidate for the prieschood. Notwithstanding that the Government of Sardinia has, by so many ects of disloyalty, incurred the displement of the Holy See, we are told that one of its subjects, Father Perrone, a member of the Society of Jesus, is about to be raised to a Cardinalate. He is understood to be hostile to the political policy of the

We learn still of an occasional case in this city, but it excites no aissum. Bosiness is reviving, and the commerce of the city will be considerably greater during this winter, in consequence of the recent suspension of trade. There were, during the last year, about 100 arrivals from the United States, bringing chiefly cotton and tobacco. The steamer Siedia, which made a voyage to New York last spring, from this city, was lost a few days ago, on a voyage to Liverpool, in consequence of a leak. Her passengers and crew were rescued.
